# Harold & Carole Pump

FOUNDATION

THE HAROLD & CAROLE PUMP FOUNDATION – DEDICATED TO RAISING FUNDS AND CREATING AWARENESS FOR THE TREATMENT AND CURE OF CANCER

*I pray my words will adequately express my gratitude and appreciation for all the services, love and support I've received from the doctors, nurses, and staff at the Leavey Cancer Center at Northridge Hospital.*

*I would not be here today had it not been for their expertise and compassionate care through my most difficult time fighting back from 4th stage Multiple Myeloma. Their Center's high standards in caregiving- both physically and emotionally are second to none. I am living proof of that. With my unending gratitude,  
Edwina L.*

*As a long-term patient of the Northridge Hospital's infusion clinic I can absolutely endorse the nurses and other health care staff there. They are professionally excellent and caring. They are also patient oriented, in that they are always personable and friendly with their charges, while working hard to keep up with the work load. In a generally stress-laden workplace, they remain calm and very accessible to the patients. In sometimes uncomfortable and worrisome situations they are "Bright lights" in the universe. I enjoy my day's coming for infusions, as I feel I am among friends, not just professionals taking care of me.  
Gary B.*

The Harold & Carole Pump Foundation (H&CPF) honors a beloved father who lost his battle with cancer in 2000 and a loving mother who passed away in 2012. Using their unique relationship-building talents and skills, their sons Dana and David Pump working with Northridge Hospital Foundation, have raised more than \$7 million for the Carole Pump Women's Center, the Harold and Carole Pump Department of Radiation Oncology, and the Thomas and Dorothy Leavey Cancer Center at Northridge Hospital Medical Center and other non-profit community charities.

The mission of the Harold & Carole Pump Foundation is to raise funds and create awareness for the treatment and cure of cancer. By engaging the community, sports leaders, and those touched by the disease, financial support is given to develop cancer treatments, programs and services and to obtain the most advanced medical technologies.

## EDUCATION AND FREE SCREENINGS

Educating the community about cancer prevention and early detection is vital to the health of our residents. With free education and cancer screenings, lives can be saved with early detection. In 2016, the Harold & Carole Pump Foundation Outreach Program attended 83 community events and educated 7,783 people on cancer awareness. Education was provided in both English and Spanish.

Thanks to the generosity of the Harold & Carole Pump Foundation, the Carole Pump Women's Center hosted 12 FREE health fairs for the uninsured in our community. "Reaching Out Health Fairs" attract hundreds of people who receive free breast evaluations and screenings. Since prevention is key, attendees also learn how to decrease their chances of a cancer diagnosis. In 2016, the Harold & Carole Pump Foundation provided 679 people with the following FREE health screenings:

*The Carole Pump Women's Center has been very helpful with patients such as myself. They have an awesome Navigator Program and team that I am thankful for. I have been coming here for the last five years for my yearly mammogram screenings, thanks to the Pumps Foundation. Service is great and they have a very courteous team. I have all praises for them! Thank you for taking care of me!  
Maria L.*

411  
Mammograms

56  
Diagnostic Mammograms

18  
Ultrasound Needle Placements

107  
Ultrasounds

18  
Biopsies

69  
Follow-up Consultations

*Many times we take life for granted, especially our health, until one day when we are told we have an illness, it is then that we realize nothing is guaranteed. For the past few months after I was diagnosed, I visited the Leavey Cancer Center almost every day, and had the opportunity to see walking angels in action that greeted me with a beautiful smile and have given me hope for better days. It is now that I understand the true meaning of life. I have to thank these three angels- Roxanne, Adrienne, & Kavita who fill my heart with hope and joy. I cannot forget the entire staff that is so helpful, especially Dr. Ronald Tang who is an exceptional doctor at Northridge. Thank you to all and God bless you.  
Garbis K.*

## FAMILY PLAN – PATIENT NAVIGATOR

Finding compassionate support is important, especially for new patients who are overwhelmed with a cancer diagnosis. A patient navigator serves as a personal guide who meets with inpatients and outpatients one-on-one to better acquaint them with the Carole Pump Women's Center, the Harold and Carole Pump Department of Radiation Oncology and the Leavey Cancer Center. Through the generous support of the Harold & Carole Pump Foundation, patients can rely on their Navigator for compassionate support, encouragement and education to ensure they have every available resource to make informed decisions regarding treatment, options and symptoms management.

## FAMILY PLAN – SUPPORT, COMFORT AND HOME HEALTH

The Family Plan Fund assists patients and their families with payment for services or equipment

needs. Patients who are hospitalized or at home with a cancer diagnosis face many difficult hours filled with painful treatments, unpleasant side effects, invasive tests, and much uncertainty. This is interspersed with periods of boredom, depression and fatigue – making it a very difficult time for the patient and their families.

In 2016, the H&CPF provided cancer patients with over 1,950 hours of home healthcare and one-on-one support.

## FAMILY PLAN – TRANSPORTATION TO THOSE IN NEED

For those cancer patients with no means of travel, the Harold & Carole Pump Foundation has budgeted a portion of their funding to provide transportation to and from the hospital for treatment and tests. This past year the Foundation provided 2,448 trips. This service continues to be a tremendous benefit for those in need.
